Italian 1020 Kubi Pilot

Giorgio Corda
in collaboration with the ATDT

17 Students - Spring 2016

I'm happy that the Kubi allowed Ron to participate in the class, and that other people were able to interact with the Italian language in a new way.

I think having the Kubi in a classroom is a great addition. I loved that Ron was able to participate, and I think the possibilities for students who are sick or unable to be on campus for any reason to "come to class" is wonderful.
